

Press Release 30th of July, 2010

JLT receives large order from the U.S.

JLT Mobile Computers AB, a leading manufacturer and developer of rugged computer solutions for the toughest environments, has in July received an order worth 35 million SEK. The order concerns vehicle-mounted computers which will be delivered in 2010. The end customer is a U.S. based world leading company.

The company also announced that new orders in the second quarter continued to increase for the third consecutive quarter. They also confirm that the supplies for the second quarter was negatively affected by increased lead times for components and a low backlog, which resulted in significant negative results for the second quarter, as previously announced in the first quarter report.

JLT's interim report for January to June 2010 will be presented on the 16th of August, 2010.
